INNOVATIVE SOLUTIONS

Tread safely with TigerTRED®

TigerTRED® anti-slip range is designed for the ultimate long-term safety and anti-slip performance in harsh industrial conditions that meet your OH&S requirements. We are so confident in our safety products that they come with a **life-time warranty!**

How safe is your site?

FACTS

- 1 in every serious injury that happen on-site every year result in over 12 weeks lost production time.
- 6 out of 10 injuries that will occur on your premises this year will be disabling injuries!
- Did you know that the second largest cause of injuries on site are trips and slips? In fact, 95% of these types of injuries happen due to FACT people simply not paying attention!

Maximum safety with higher return on your investment

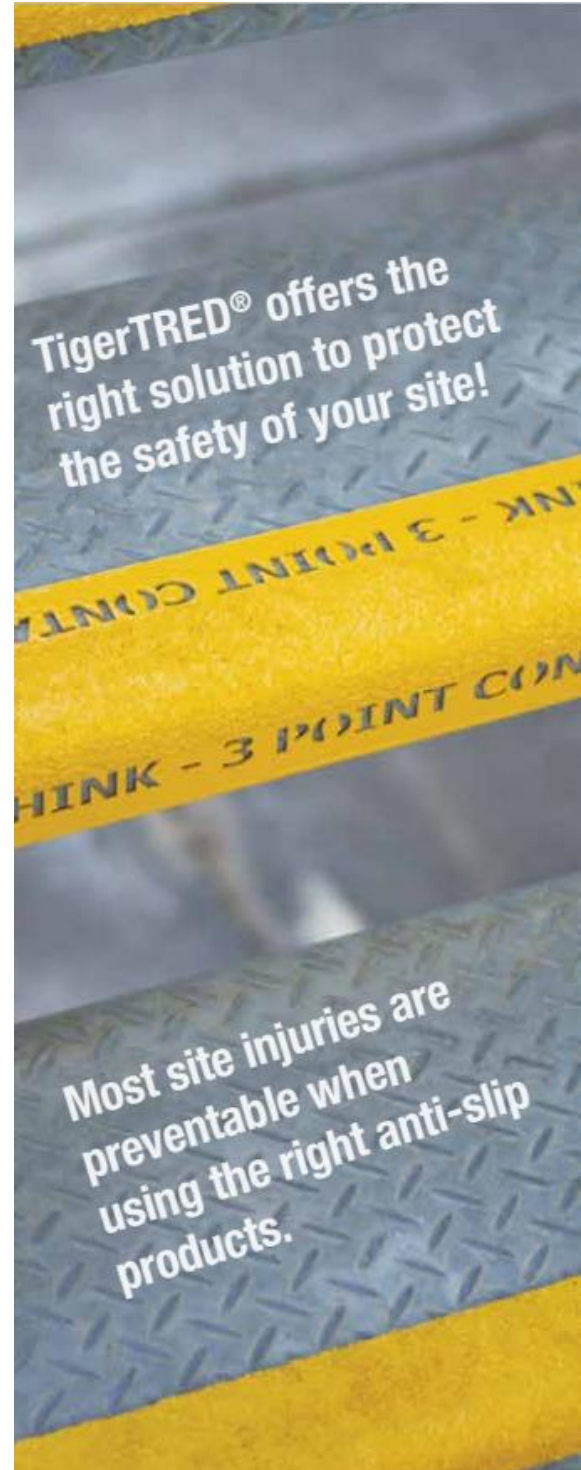

Safety is non-negotiable; however we understand everyone operates within budget constraints. TigerTRED® products come with a lifetime warranty and have been designed to ensure ultimate durability, putting more money in your bottom line!

Let us take away the stress of your duty of care

We offer site-wide safety management services, including thorough site inspections and safety reports; allowing you to focus on your main duties.

Save Tomorrow... Think Safety Today

The TigerTRED® range has been developed to combat the root cause of 95% of accidents. We make people think as they walk by displaying a standard or customised safety message on your stair nosings.

Why TigerTRED®?

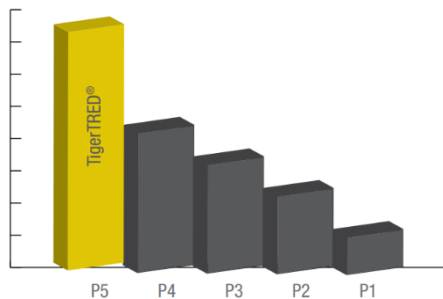

- Unrivalled durability and resistance to many types of wear
- Extreme resistance in the harshest chemical environments
- Innovative accident prevention with safety message on stair nosings
- Easy to install, wash and maintain
- Lifetime warrant

TigerTRED® Product Performance

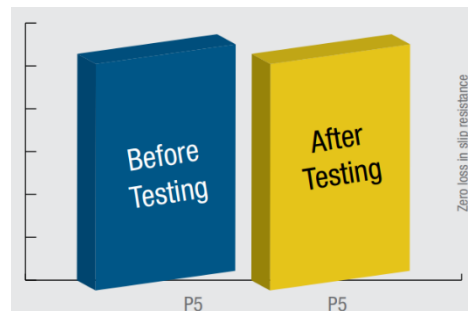

Slip Resistance

TigerTRED® products achieved the highest possible slip resistance rating.

Durability and Wear Resistance

TigerTRED® products have zero loss in slip resistance characteristics after the accelerated wear test.

Corrosion Resistance

Maximum concentrations for sustained direct exposure of standard TigerTRED® products at ambient temperature.

Acids

- Hydrochloric (10%)
- Phosphoric (10%)
- Sulfuric (30%)
- Urea (30%)

Alkalis and Bleaches

- Ammonium Hydroxide (28%)
- Potassium Hydroxide (10%)
- Sodium Hydroxide (10%)
- Potassium Chloride (30%)

Special **chemically resistant** TigerTRED® products are also available, which are designed for sustained direct exposure to highly concentrated chemicals.

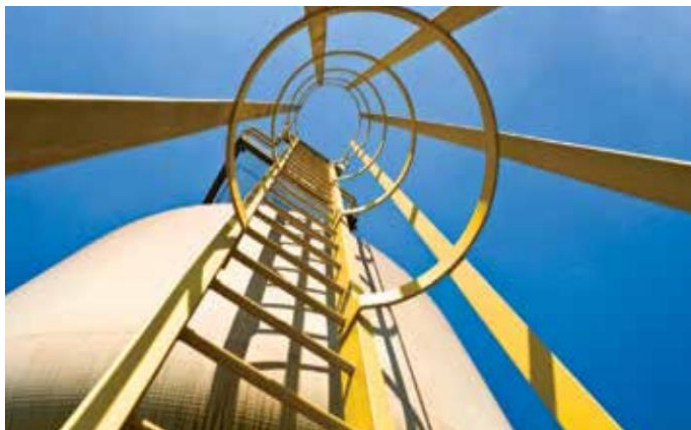

TigerTRED® Product Range

Stair nosings

TigerTRED® stair nosings can be produced to suit any type of stair area that is exposed to slippery, hazardous, and dangerous environments. TigerTRED® are the only stair nosings to incorporate a safety message aimed at solving the root cause of 95% of accidents.

- Extreme durability
- Comes in a range of standard and custom sizes and colours
- Site installations are available
- Fasteners, pre-drilled holes

TigerTRED® Ladder Rung Covers

TigerTRED® ladder rung covers have been designed to withstand heavy foot traffic and have ultimate durability even in the harshest conditions!

- Extreme durability
- A range of standard and custom sizes and colours
- Easy installation

TigerTRED® Floor Plates

TigerTRED® floor plates are designed to fit most shapes including concrete, masonry, decks and even wood.

They can be used indoors, outdoors and in all types of harsh weather or dangerous conditions and can be welded, screwed, riveted, bonded or bolted directly to the surface.

TigerTRED® Complete Stair Treads

TigerTRED® also comes in a range of whole stair treads custom made to fit your existing staircase.

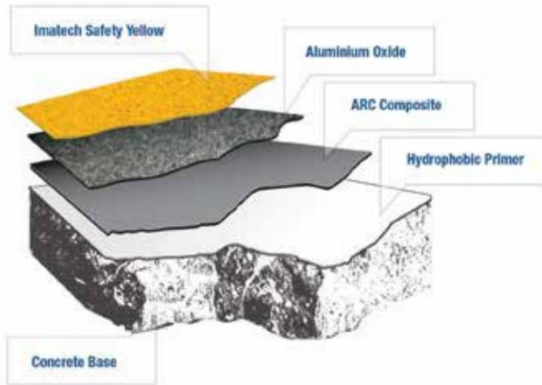

IMATECH

INNOVATIVE SOLUTIONS

TigerTRED® Concrete Anti-Slip Re-Surfacing

Site installation of TigerTRED® anti-slip surfacing technology is available for all on site surfaces including large scale floorings that experience heavy traffic. Our experience in surface preparation of contaminated and heavily corroded concrete along with our range of chemically resistant concrete specific technologies ensures a long service life on TigerTRED® anti slip treated concrete.

TigerTRED® Safety Management Services

- We offer site and multi-site wide safety management services that ensure you are always informed about the condition of floor, stair and ladder surfaces on the premises.
- Take advantage of our complimentary services which include periodic inspections of your site by our experienced staff and detailed reports of the condition of all foot traffic areas on your site. *

- ✓ Highest possible slip resistance
- ✓ Ultimate durability
- ✓ Innovative accident prevention
- ✓ Safety management services
